

## OUR SERVICES

Founded in 1997, CN Associates is a dedicated team of over 50 professionals providing your company with comprehensive services in radiological remediation, decommissioning, health physics, project management and training services.

We provide services for small, medium and large clients in both the public and private sector. We have delivered to a broad range of industries including research & development, nuclear power, life science & medical devices and manufacturing.

### We specialize in:

- Radiological remediation, decontamination and decommissioning
- Radiological site characterization, assessment, measurement & monitoring
- Health Physics and radiological safety program development, management & auditing
- Radiological licensing, amendment & termination and corporate/site RSO services
- Health Physics training services including Radiation Safety Officer and technical services training
- Licensed Radioactive Waste Broker for disposal of sealed sources and radioactive waste

## OUR CLIENTS & PARTNERS

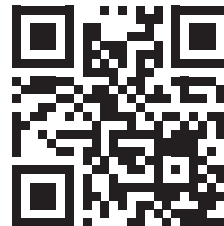

We provide services for small, medium and large clients in government, the public and private sector. We have delivered to a broad range of industries including research & development, nuclear power, life science & medical devices and manufacturing.
